Press Release

Cabarrus Head Start Administration Change for 2017-18 School Year

Concord, NC, February 3, 2017: The Cabarrus Partnership for Children Board of Directors recently announced that they will not be applying to renew their grant that funded the Head Start program in Cabarrus County so they can focus on other programs which include NC Pre-K, Smart Start, mental health, and emergency homelessness. The Partnership initially assumed management of the Head Start program July 1, 2015.

The Partnership will continue their responsibilities for the Head Start program through June 30, 2017 and has been assured by Lisa Goldman, Regional IV Specialist for Head Start, that services will not be interrupted during the administrative transition. When Region IV Head Start announces the new Cabarrus Head Start provider, the Cabarrus Partnership for Children will notify the community.

The Cabarrus Partnership for Children is a local nonprofit that connects purpose, people and programs to ensure child well-being in Cabarrus County, North Carolina.
